¹ There was some discussion at the general business meeting in Berlin (Aug, 2006) about whether ISJR could increase dues without a change to the by-laws. Even though a specific dues amount is listed in the current version of the by-laws, the by-laws also include the provision that “changes in dues regulations are to be decided at a general business meeting.” (see § 4). Therefore, the dues increase that was approved at the general business meeting in Berlin is consistent with the by-laws, and was therefore implemented immediately.

Please mail your completed application with payment or credit card information to:
