CALL FOR PAPERS

Social Justice Research (SJR) is an international multidisciplinary forum for the publication of original papers that have implications of sufficient scope to be important to all social scientists investigating the origins, structures, and consequences of justice in human affairs. The journal encompasses the justice-related work (using traditional and novel approaches) of all social scientists — psychologists, sociologists, anthropologists, economists, public policy specialists, political scientists, legal researchers, organizational and management scientists, and others. By its multidisciplinary approach, SJR hopes to further the integration of the various social science perspectives. In addition to original research papers — theoretical, empirical, and methodological — the journal also publishes book reviews and from time to time publishes special thematic issues.

Social Justice Research is indexed/abstracted in *ASSIA: Applied Social Science Index and Abstracting*; *Criminal Justice Abstracts*; *Current Contents/Arts and Humanities*; *Current Contents/Social & Behavioral Sciences*; *Family & Society Studies Worldwide*; *International Bibliography of the Social Sciences*; *Psychological Abstracts*; *PsycINFO Database*; *Sage Public Administration Abstracts*; *Sociological Abstracts*
